JD Hockey Scoreboard for iPad - JD Hockey Scoreboard Title Screen for iPad - JD Hockey Scoreboard Screen Setup for iPad - JD Hockey Scoreboard For iPad Theme - Classic theme © 1996-2014, Amazon.com, Inc. or its affiliates Open Mac Store Use JD hockey scoreboards for free to create a great scoreboard view for the hockey game. Whether you're playing street hockey, floor hockey or table hockey, JD hockey is for you. Show free, easy to read and fun to use the hockey scoreboard to get your friends to follow in hockey action. Features include:* Multiple themes – choose from 3 different text styles for your hockey scoreboard.* Faceoff music – get charged and improve your game with authentic organ faceoff music between faceoffs.* Fine clocks - manage up to 4 different penalty runs at the same time.* Shot clocks - follow the shots at the goal with a shot of each team clock.* Swipe interface - change the score interface, time on the clock , and many other elements, moving up or down.* Automatic periods - when the period ends, automatically moves to the next.* Sounds - end of period buzzer sound and siren goal.* Custom command names - customize command names using the settings bar. Thank you for your support! Various bug updates and iOS11 fixes are included in this release. I like this app because it plays music, but it has no shooting dose and OT I like this app because it plays hockey music and it's easy to use Developer, DazzleAppz, has not provided details about its privacy and data processing policy at Apple. The developer will have to provide privacy information when they submit their next app update. This app is only available in the App Store for iPhone and iPad. Save time and score games easily with Hockey Scorebook+. This simple application for sports allows you to register each event of the game on a familiar scoreboard screen with the participation of teams at home and on the street, game clock, possession scores, penalties and timeouts. It even comes with an extra horn to signal the end of each quarter. But the feature that makes Scorebook + hockey stand out from other command applications is the ability to connect to any HDMI-enabled display. Turn a TV, computer screen, or even a projector into a scoreboard for the entire crowd. No money to maintain a game board at school or rec center? Playing outside of a hockey tournament? Need something simple for your league games? We've covered you! With SCOREBOOK+ HOCKEY, YOU CAN: - Quickly customize your list (optional) - Record individual and team points and penalties - Edit and delete mid-game scoring errors - Share game points electronically - Set up rules, rosters, season and more- Export data to MaxPreps.com- Export game statistics to spreadsheet (.csv)OTHER FEATURES INCLUDE: - Detailed and searchable live gaming log, iPhone and iPad native control- Team management - Built-in high school rules to mark and help eliminate errors - Built-in seasons, default commands, and game types, including regular season, playoffs, tournaments and more - Live game statistics showing snapshots, ratings and percentages by TYPE OF HOCKEY SCOREBOARD FEATURES: - Adjustable gaming clock - Gaming account - Team account - Ownership arrow - Game period - Horn - Wi-Fi casting with AppleTV - Display settings for HDMI-enabled TVs, computers or projectors using Apple HDMI adapter Anyone can be the team's top scorer. Simply download the app and immediately join our basic assessment. Or use advanced scoring to create your own list, customize settings, track statistics, edit events, and save, download, and share all game data. It's easier than your traditional account. TRAINERS: Get the tools you need to make better decisions with real-time hockey statistics. FAMILY, PLAYERS AND FANS: Want to watch the action? Display a scoreboard for a crowd with built-in HDMI display capabilities. Hockey Scorebook+ is ideal for schools, recast centers, tournaments, league games — even skregs. Download hockey scorebook + app to evaluate today for free._____Next features of the program are free, regardless of whether the user buys an update to advanced features. Advanced features of the application are available through subscriptions and are managed through your Apple iTunes account. You can easily cancel any time online, 24 hours a day. There are no long-term contracts or cancellation fees. Payments will be credited to your iTunes account upon confirmation of the update. Subscriptions automatically renew unless auto-renew is turned off at least 24 hours before the end of the current period. Accounts will be charged for within 24 hours before the end of the current period according to the tariff selected in the subscription plan. Subscriptions can be managed in your iTunes account settings.Any unused portion of the free trial period, if offered, will be confiscated when a user purchases a subscription where appropriate. Subscriptions are automatic renewable• MONTHLY (\$2.99), SIX MONTHS (\$15.99) and ANNUALLY (\$19.99) / March 24, 2020 version 1.0.77 - General bug fixes and improvements. I don't see the middle of the scoreboard anymore on the recent update, which was in late October to November. I don't see anyone shooting at gates and targets and the like. Please update this. Useful for game tracking, but lacks the ability to store player/team statistics for seasonal/multifaceted situations. The developer, Mia Terragas, did not provide details about Apple's privacy and data processing policies. For more information, see <ad><a1><ca2>Windows</ The developer will have to provide privacy information when they submit their next app update. Website developer app support multisport privacy policy covered scoreboard. Recommended for use in hockey and built-in hockey. There's a Horn button. The horn is large. This scoreboard is simple to design and easy to use! The remote control can be used on bluetooth. Please. Recommended use: -Hockey -Built-in Hockey -Scorekeeper Get on the Hockey Scoreboard has everything you need for a large scoreboard. This scoreboard and its remote controls can be used for all types of hockey. Whether it's hockey, street hockey or roller hockey and built-in hockey for any minor league and professional league. The Live Score Hockey scoreboard items contain the following list of items, supported in our scoreboard layouts to provide a full-fledged workable hockey scoreboard and experience: If you want to create your own scoreboard with professional edition, please use the scoreboard Get more information about the available controls, styles, and controls. The standard Live Score edition contains various scoreboard layouts that provide all the features and optional color adjustments. Scoreboard 1 is a typical modern and glossy scoreboard. It contains goals, periods, and time display. You can customize the primary colors for your command's colors. This scoreboard is built with a long and dark layout. The teams are located at both ends of the scoreboard. The layout is expanded by the main image in the middle and 2 images for both commands. Colors are integrated with thin lines around layout shapes. Command images have a basic size of 27 x 25. The main image is 60 x 45. This scoreboard is the basic setting for the big screen LED on the field. It has a full-screen layout with details about goals, periods, game clocks and the number of shots for both teams. The game clock is located at the top of the scoreboard. You can adjust the text color using all available color options. Scoreboard 4 is a completely new layout with a fresh new style. It contains all traditional elements such as teams, goals, time period and dynamic display of powerplay and penalty indicators. Placed on top or bottom of your stream, this scoreboard gives you a fantastic and modern look for your production. Scoreboard 5 is a new flat board layout. It has displays for the period, time, scores, power of the game, penalty kick, empty grid. It is ideal if you need a long and thin scoreboard that smoothly fits without disturbing the basic appearance. Command images have a basic size of 50 x 38. Scoreboard 6 is a great modern sports scoreboard. It has all the necessary elements that can be shown in the layout. The scoreboard can be perfectly integrated at the top or bottom of the screen. It can be used as a wide, but also a smaller layout, the perishing of optional elements. The main image has a basic size of 108 x 40. The shootout #1 is the first shootout layout to win shots. It displays full team names along with up to 10 possible rounds. It certainly has to come to an end. Custom scoreboards you can create your own scoreboard layouts and upload them to the Live Score software. If you're using The Standard Live Score edition, you can download the layout, but it will show that you're using the demo version during the live stream. Clients with professional editions can use special scoreboards without restrictions. For more information about the controls, styles, and controls that are available, use the layout and scoreboard guidelines. Remote Controls Our remote controls allow you to change all available items from your iPad and/or iPhone. The iPad version contains a scoreboard in the upper left corner where you can see all your data. The iPhone version uses a panorama that you can swipe or change using the tab control in the part of the screen. Each panorama view covers a specific theme, so you have everything on the screen when you're in control part of the scoreboard. Built-in sports controls are the perfect companion if you don't have an iOS device, or if you just want to have a secure control layout that isn't tied to your LAN. This type of control triggers all actions directly in the app and ensures that no wireless interference prevents you from using the scoreboard. Built-in controls can be controlled independently or in combination with your iOS remote controls. Automatic mode will help you update the scoreboard depending on the current situation and the pitch of your sport/ game. It's less work for a better experience! Here's a review of Hockey's Live Score and its automatic mode management features: Hockey Auto Control Features: Web widgets can be embedded on any of your websites. If you enable FTP Live Score, web widgets will be automatically updated when the

scoreboard is updated using remote controls. The standard web widget, which can be exported from Live Score, contains the following data: WARM-UP, PERIOD AND END DISPLAY OF THE WHOLE GAME TIME DISPLAY LIVE INDICATOR Use the FTP-tiper guide and Web Widget Guide for more information about FTP Tiker, Web widgets and how to modify and configure them.
